RUSSIAN STRIFE DIES AS ALLIES PROMISE RECOGNITION

TREATY'S FATE MAY HINGE ON PREMIERS' NOTE

Hope is Aroused That Desire of Europe May Lead America In
LEAGUE'S IN THE AIR
Belief Expressed That the Allies Have Yielded to Wilson's Adriatic Note

WASHINGTON, Feb. 27.—Conferees of senate leaders were hastily called today following publication of the exchange of notes between President Wilson and the allied premiers over the Adriatic situation, to determine the effect of the notes on the treaty situation in the senate.

The response of the British and French premiers, in their note of February 17, that they view with consternation the threat of the withdrawal of the United States from the league of nations, and "earnestly trust that whatever the final view of the United States government as to the Adriatic settlement may be they will not wreck the whole machinery for dealing with international disputes by withdrawing from the treaties of 1919 because their view is not adopted in this particular case," was construed by senators as fresh evidence that the British and French government are anxious to get the American people into the league.

It was generally agreed that the publicity given to the exchange of notes had thrown the treaty situation completely up in the air.

Doubt was expressed by some senators as to whether it would be worth while for the senate to proceed with its consideration of the treaty while the outcome of the Adriatic correspondence remains in doubt.

The fact that the response of the British and French premiers to President Wilson's last note on the subject was only dispatched from London yesterday and had not reached the state department further complicated the question.

WASHINGTON, Feb. 27.—Acceptance of President Wilson's proposal for the settlement of the Adriatic problem by a conference between Italy and Jugoslavia, is hoped for by officials here, who are today anxiously awaiting the reply of the allied premiers to the president's latest note. The reply is understood to have left London last night and should be in the hands of the president today.

The quick reply made by the entente premiers is interpreted here as an acceptance of the president's proposal, and it is understood that the Italian government is willing to hold a conference with Jugoslavia in an attempt to reach an agreement. If the proposal for a conference is accepted and it fails to reach an agreement satisfactory to the United States, Great Britain and France, then Italy and Jugoslavia must stand by the proposals made by the other allied countries.

Hopes for a settlement of the Adriatic controversy by reopening of negotiations between Italy and Jugoslavia were greatly strengthened here by reports from Paris that the quick reply of the allied premiers was due

PNEUMONIA IS FATAL TO YOUNG WOMAN AT CONESVILLE FRIDAY

Death claimed Mrs. Charles Crossley, 28, Friday morning at 6:30 at her home in Conesville after an illness of two weeks of flu and pneumonia. Mrs. Crossley, whose maiden name was Jennie H. Bryan, was born July 25, 1892 at Conesville where she lived her entire life. She was united in marriage eight years ago with Charles Crossley, who with one son, Virgil, aged 6, survives.

In her girlhood days Mrs. Crossley united with the Conesville M. E. church and her entire life was one full of Christian simplicity. Her pleasing personality won for her a large circle of friends who are deeply grieved to learn of her untimely death.

Besides the husband and son she is survived by her parents, Mr. and Mrs. Charles Bryan of Conesville and the following brothers and sisters: Edward and Lucile Bryan of Conesville, Eugene Bryan of Sandusky and Mrs. Fred Noble of Fort Wayne, Ind.

Funeral services will be conducted at the Conesville M. E. church Monday morning at 10 o'clock by Rev. Bay. Burial will be made at Frazee's Bay.

LEADERS OF FARM ORGANIZATIONS CONFER IN WASHINGTON

Some of the delegates photographed between meetings. The national board of farm organizations, composed of representatives of the big farm associations all over the U. S., has been in session in Washington, discussing and acting on problems affecting the farmers. The high cost of food and supplies and scarcity of help are among the problems.

PRAYER IS ANSWERED WITH A SHOT

DALLAS, TEX., Feb. 27.—Mrs. P. G. Bordenave walked with A. L. Herring in Forest park, while her husband, with bowed head, prayed in church that his wife's love be returned to him—that his home be saved.

As the strolling couple paused in a darkened pavilion another man approached. With a curse, he advanced toward the figures he saw outlined against the sky. He shot. Herring fell dead.

The slayer sprang toward Mrs. Bordenave, saw her, checked himself and threw his hands before his face. "I've shot the wrong man!" he screamed. Then he turned and fled. Two days later Bordenave embraced his wife, and they walked arm in arm from the city jail.

Billie McVay, a youth of 20, had confessed to the killing. He was a stranger to the Bordenaves. He had never seen Herring before he shot him. According to information in the district attorney's office here, McVay's bullet had been intended for another man. "I would have done anything rather than kill an innocent man," he said in jail.

Herring's body was sent to St. Louis, where he is survived by a widow and two children.

ARMED REVOLT WAS PLANNED IN MICHIGAN

More Serious Phase of the Iron-Co Fiasco Narrowly Was Avoided

IRON RIVER, MICH., Feb. 27.—A more serious phase of the "Iron County Rum Revolt" was disclosed today when it was learned that 3,000 citizens of the county, a majority of them miners, were prepared during the invasion of Major A. V. Dalmryple's prohibition agents to resist by force the arresting without warrants of State's Attorney Martin McDonough or other citizens of the county.

According to statements by citizens, it was planned to hold up the train which was to bear the arrested citizens from the county and take them from the federal agents, with bloodshed if necessary. That the "prohibition expedition army force" was not menaced on its arrival was said by friends of McDonough to be due to a tour of the county made by him, during which he counseled calmness on the part of all citizens.

Public sentiment here is that the citizenship generally is law abiding and has not broken the prohibition amendment. While many of the residents have large "private stocks" in their cellars, they feel they have just as much right to such possession as have wealthy citizens elsewhere.

This sentiment is to be crystallized in a hearing held for the purpose of obtaining the rights of Iron County. The hearing is to be presided over by United States District Attorney Myron Walker of Grand Rapids. A representative of the department of justice and a representative of Attorney General Groesbeck.

In the meantime the wondering natives, many of whom are of foreign antecedents, cannot understand why such a do is being made over the whole situation.

"We have always had wine since we were children," is heard everywhere. "Why should our government wish to deprive us of it?"

BUTTER 60-65; EGGS 50-60 IN COSHOCTON FRI.

Grocers' Profit Figures 8 1/2% On Butter and 20% On Eggs

Country butter was retailing in Coshocton at 65 cents Friday. Eggs were selling at 56 to 60 and retailers were paying from 50 to 52. Butter was bringing the producer from 58 to 60 cents. Butter and eggs are both plentiful for this time of year, dealers say.

Chickens were quoted at 32 cents Friday and very scarce. Potatoes were selling at 9 cents a pound retail Friday. Grocers blamed the high price on delayed shipments. The price by the peck was 75 cents at some stores.

Supar is plentiful at 22 cents a pound. Grocers expect that price to obtain.

Expect Final Decree

WASHINGTON, Feb. 27.—A final decree dissolving the unrelated businesses of the large packers as agreed between Attorney General Palmer and the packers, was expected to be entered in the supreme court of the District of Columbia today.

MANSFIELD IS AROUSED OVER A REPETITION OF ATROCIOUS DEED; POLICE SEARCH FOR DEGENERATE

Criminal Assault of Young Widow Led From Street to Rear of Lot at Point of Gun Follows Terrible Murder of Girl Under Similar Circumstances

BABIES BORN ON FEBRUARY 29 WILL HAVE FEW BIRTHDAYS

The Leap Year jinx will cling thru life to any child born next Sunday, February 29. Its birthday anniversaries can only be celebrated every four years.

The Tribune and Times-Age will endeavor to report the arrival of the stork at any Coshocton home Sunday, for there will be more or less distinction about being born on that date.

MANSFIELD, Ohio, Feb. 27.—While returning home last evening, after having consulted a fortune teller, Mrs. Elizabeth Titschinger, aged 22, was accosted by a man who placed a revolver to her temple and ordered her to go with him. He led the woman to the rear of a lot where he left her, after criminally assaulting her. Mrs. Titschinger says the man is between 30 and 40 years old, is a foreigner and speaks fairly good English. Blood hounds from Marion took up the trail which they followed to the east part of the city then back to a shack on the Pennsylvania track. The man at the shack said a stranger had come in to get warm.

The police have a suspicion that this man may be the same fiend who was responsible for assaulting Miss Ethel Dudley on the night of February 3 and leaving her dead body in a vacant lot.

Mrs. Titschinger and her husband had been estranged but apparently had adjusted their differences and had planned to live together today.

A sister of Mrs. Titschinger says her sister had gone to consult a fortune teller about her family affairs and was on her way home when she was assaulted. Mrs. Titschinger told the police the man stepped out from a dark place, shoved a gun against her temple and said, "I don't know you. You don't me. I never saw you before. You never saw me before. You will never see me again."

The young woman says her assailant, holding the gun to her temple, led her to the rear of a lot where he removed a wire on the gate, opened it, then grabbed her by the hair. That is the last she knew until she staggered against the door of the house on the lot.

THIRD FELTON CHILD JOINS PARENTS WHO DIED OF PNEUMONIA

Only One of Four Children Still In Hospital Was Better Friday

BABY IS STILL LIVING

With the death of Edna Felton, four year old daughter of the late Mr. and Mrs. James Felton, Fleming's Corner, near Clark at the City hospital Friday morning at 2 o'clock the fifth member of the family succumbed to the ravages of pneumonia. Three children remain in the City hospital suffering from the disease which has caused the death of the father and mother, James, jr., aged 2, Earl, aged 12, and Edna, aged 4.

It had been reported that a month-old infant named John had died at the late home a few days before the death of the mother, which occurred more than three weeks ago, but this statement was corrected Friday when it was learned that the infant, which was taken by a relative of the family living in Holmes-co is still alive.

The surviving members of the family which consisted of father and mother and eight children four weeks ago are Eleanor, aged 14, Carl, aged 10; Agnes, aged 8; Ralph, aged 6; and the month old infant, John.

The condition of Carl was much improved Friday and he was allowed to sit up at the hospital. Eleanor, Agnes and Ralph are still critically ill. They have been in the city hospital since February 8 suffering from pneumonia.

A double funeral was held Thursday afternoon at the Shepherd church and the remains of the father and his little namesake were laid to rest beside the mother and son Earl. No funeral arrangements had been made Friday for Edna.

BONDS FOR HIGHWAY IMPROVEMENT TAKEN BY INDUSTRIAL BOARD

Contract For Paving East of West Lafayette to Be Let Latter Part of March

Bonds in the sum of \$76,000 for the paving of the section of road from the east line of West Lafayette to Waggoner's Corners were taken by the Ohio Industrial Commission at Columbus Thursday. The bonds bear 5 1/2 per cent interest. The total estimated cost of the improvement is \$112,000 for the 2 1/2 miles, the state's share being \$36,000, which is already available.

County Auditor J. E. Lyons was in Columbus Thursday and closed the transaction for the sale of bonds to the Industrial Commission. This does away with the delay and expense of advertising the bonds and greatly expedites the starting of the work. Bids will be advertised soon and the contract will probably be let the latter part of March. The \$76,000 worth of bonds sold represents the portion to be paid by the county, township and property owners.

ROSCOE RESIDENTS OBJECT TO REPAIRS IN VILLAGE STREETS

Repairs effected in the main street of Roscoe near the old "town pump" by laying cinders, broken bricks and dirt in the street have incurred the displeasure of residents of the village. Three wagonloads of this material were dumped in the street in front of the principal stores of Roscoe Thursday afternoon by order of the county commissioners, it is alleged by complaining inhabitants.

It is said by those familiar with the drainage of the village streets that a hard rain will wash this material into the stores on the east side of the street. The removal of the deposit may be asked by Roscoe citizens.

The net income of the 3,472,890 persons who filed income tax returns in 1917 was \$13,652,383,205.

WARFARE ON A BIG SCALE NO LONGER RAGES

Truce Reigns Thruout All Northern Russia; Peace With Poland Imminent

SOVIET'S VICTORIOUS

Lenine and Trotsky Are Heroes As Conclusion of Long Fight Nears

LONDON, Feb. 27.—With the soviet government nearer formal recognition by the allies than at any other time since it was set up by Nicolai Lenine and Leon Trotsky in the summer of 1917, warfare on a big scale has ceased in Russia.

The Soviet is maintaining five powerful armies under arms, but the scattered fighting now reported consists mainly of patrolling encounters or clashes between isolated factions of the Bolsheviks and the anti-red Russians.

A truce reigns thruout Northern Russia, where the Soviet is now in control of all of the Archangel and Murmansk districts. A great Bolshevik army has been continued near the Polish frontier, but there are indications that Poland and Moscow will soon make peace upon terms approved by the allies.

Another Bolshevik army has been concentrated in Bessarabia and has been threatening Rumania with invasion, but belief is expressed that the allied suggestion that the states bordering on Russia make immediate peace with the Moscow Soviet will effectually hold up offensive operations in that theatre. Patrol skirmishes have been reported from the Dniester River line, where the Rumanians have prepared fortifications.

The only war zone where fighting of any real importance has been reported recently is between the Sea of Azov and the Caspian Sea where the scattered remnants of General Denikin's old army are now stationed. The Soviet forces have been extending their area of occupation and claim to have taken the important city of Rostov on Donon.

A hull exists upon the Siberian front, but the Bolsheviks have large forces upon the Chinese frontier, according to official reports to the British war office.

NEGLECTED CHILD IS TAKEN TO THE CHILDREN'S HOME

Nathan Carl Cross, 7 year old illegitimate son of Altha May Cross, was rescued from a pitiable condition of neglect in a room in the Mecca hotel by local officials. Thursday and was taken to the Tuscarawas Co. Children's Home at Dover Friday morning by Chief J. R. Mapel, Probation Officer E. C. Rinner being unable to go on account of illness.

The child has been living with its mother, who is the divorced wife of James Cross. Complaints were made to Mayor Tish and Judge M. C. Ely that the child was badly clothed and was being utterly neglected. Investigation followed and the little orphan was brought into the city.

The mother consented to the child being taken to the Children's Home, she being unable to provide for it. Arrangements have been made to place another younger child in the father's home near Bids Run, where another older child is already residing.

KINKEAD REFUSES TO BE INDIGNANT; STILL PRO-HARDING

MARION, O., Feb. 27.—Judge E. B. Kinkead, Columbus, sitting here in the trial of a \$100,000 damage suit, today gave out the following statement setting more in detail his announcement of yesterday that he was still for Harding, "first, last and all the time."

"While holding court in Marion different persons have called me regarding my attitude concerning the delegate tangle at Columbus. I consented to the use of my name as a Harding delegate, with a distinct understanding that the manner in which the names were selected had been agreed to by Senator Harding at a conference in the east. This understanding has been confirmed since I have been here at Marion by the senator's closest friends who greatly regret the Columbus situation, as I do myself, because my attitude regarding the Columbus situation has been as some well know, that Republicans should not be so foolish as to break harmony which was secured last fall.

"I think personal grudges can well be laid aside, to bring harmonious action. I know that Senator Harding personally stated that I was satisfactory to him as a delegate, but his notion did not prevail. I am not the least disturbed about the matter, for it is entirely agreeable to be out of it because at no time did I expect to be in a contest and especially not now.

"I am just as friendly to Senator Harding now as I have always been, and am especially hopeful for the success of the party."

HERO RISKS LIFE FOR GIRL'S KITTEN

CHICAGO, Feb. 27.—Some heroes risk their lives for love of country, love of fighting, or love of lady. Fire was eating into the old Ellis cafe. Hundreds of spectators were watching. Came a little girl, weeping bitterly.

"My kitty's in the fire," she sobbed. John Stansfield was nearest to her. He dashed thru smoke and flame into what appeared certain suffocation. When he stumbled out, hair and eyebrows singed off, clothing smoking, he held a black cat.

"There you are, little one," said Stansfield. The little girl hugged the cat to her bosom and gave the rescuer a thrilling smile. As Stansfield walked away he received many hearty thumps on the back from men and much applause from women.

"It's nothing," he said. "Couldn't bear to see the little lady in distress."

Turks Will Retain Constantinople City

LONDON, Feb. 27.—Formal announcement that the Turkish government is to retain Constantinople was made in the house of commons this afternoon by Premier Lloyd George. The premier added:

"It would be the height of folly, however, to trust the guardianship of the gates (the Bosphorus and the Dardanelles) by a people who betrayed their trust. The gates will never be closed by the Turks in the face of British warships again."

SUCCESSFULLY RESTORES HEALTH OF LAD RETURNED.

"I want to say a good word for this new tonic Earle's Hypo-Cod for it helped my boy William wonderfully," declared Mrs. Rita O'Boyle, whose address is given below.

"Now this brave mother received back one of her boys in a sick, weakened condition from camp and sought means to restore his health is a long story. A story goes with that other son who fought and fell over there and then there was another brave lad of hers who served three enlistments with the British and was in the thick of it all, but in speaking of how she brought back her boy William to robust health she said:—

"My druggist recommended Earle's Hypo-Cod as the best thing to build him up and it did it in a wonderful manner. He now has just a splendid

appetite and can eat just anything at all, and feels so very much stronger and better I am delighted. He was under treatment from a specialist for quite a while but Earle's Hypo-Cod has done more for him than all the medicines and treatments he had before I cannot help but recommend Earle's Hypo-Cod continued Mrs. O'Boyle, 107 E. HOOVER AGREES WITH HIS CRITICS

NEW YORK, Feb. 28.—Boies Penrose, having established that Hoover is not a Republican and William J. Bryan having read him out of the Democratic party, the way is now clear to "get on with the issues" before the country, Herbert Hoover de-

clared in a statement today.

"We are making decided progress toward the determination of the attitude of the great political parties on the solutions of the great business and social issues for the next election," said Hoover. "For instance, Mr. Penrose has declared that I am not his kind of a Republican. Mr. Bryan has declared that I am not his kind of a Democrat. Mr. Hearst has declared I have not his variety of patriotism. I at once agree with these gentlemen.

"Having now disposed of this momentous matter let us get on with the issues—the methods of taxation, for instance."

Discovers magic ether compound which loosens a corn so it lifts right out

Good news spreads rapidly and druggists here are kept busy dispensing freezone, the ether discovery of a Cincinnati genius, which is said to loosen any corn so it lifts out with the fingers.

Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so shriveled that it lifts out without a particle of pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

GERTRUDE WAS HERE IN FLESH AND BLOOD

Coshocton sat up and took notice Wednesday when Gertrude Hoffman, widely heralded as the Venus model, tripped along Main-st. clad in a fur coat and a cute little toque. Was it the real Gertrude—the one who has created many a furor in the big cities from coast to coast? That's what all the young men wanted to know and some of them are still wondering. Anyhow, Gertrude Hoffman, alive and breathing, bewitchingly charming, was here. She didn't vouchsafe any information concerning her pedigree or stage career when she and another theatrical maiden paid a brief visit to The Tribune and Times-Age office and almost caused prostration among the male members of the force. She didn't seem the least bit swelled up over the fame which her name has won and chatted just like any other human being with a reporter, who played the role of reception committee and declared she was the real thing. She posed in living reproductions of famous paintings and new physical exercises at the Uthman theater Wednesday and Thursday.

BRITISH PRESS SAYS PROHIBITION IS AN AID TO BOLSHEVISM

LONDON, Feb. 27.—Prohibition was attacked as "an incentive to Bolshevism" by the Morning Post today in an editorial commenting upon the activities of American "dry" workers in this country. Under the caption, "a glass of good beer" the Morning Post said:

"America is like the fox in Aesop's fable that lost its tail and then tried to persuade the others that tails were useless. We gather that things are not altogether well in bone dry America. The anti-saloonists are forced to spend enormous sums in preparing for the enforcement of the law."

The newspaper referred to the "increase of serious crime in the United States" ending that this does not encourage the hope of a new heaven upon earth from prohibition. It urges preparations here "to prevent Russian tactics by the prohibition workers."

WHY MOTOR DRIVERS SHOULD KEEP
MACHINE UNDER CONTROL AS THEY
APPROACH GRADE RY. CROSSINGS

"During the year, 6,133 drivers and occupants of automobiles and trucks were killed or injured at railroad crossings. Of this number, 1,777 were killed, 4,356 injured, because they did not take the precaution to look and listen. If they had, at least 90 per cent of the accidents would have been avoided, thereby saving sorrow, pain and expense," says a safety first letter to the public recently issued at the railroad director general's office.

"When the view of the automobile driver is not obstructed and it is possible for him to see the railroad tracks for a distance of a quarter of a mile on either side of the highway, and see no train approaching in either direction, it is reasonable that he should maintain his ordinary rate of speed. If the crossing at the intersection of the railroad and the highway is improved with buildings, or cars are spotted on the siding near the crossing, or the highway crosses through a yard, and cars are on tracks to cut off vision where trains are liable to move in the opposite direction on the main track, by fences, trees, shrubbery and grain fields. It is imperative when the driver is 50 feet from the crossing, that he reduce the speed of his machine to 10 or 12 miles per hour, and that his car is under positive control, so that there may be no surprise to either the engineer or the driver of the machine.

"The same applies to a grade crossing where it is necessary to go up a grade on the highway on the approach to the crossing. Under this condition even tho the vision is not obstructed and the grade is of such nature that it taxes the power of the car while in high speed, it is essential that the driver should go into low speed at a safe distance before he approaches the crossing, so as not to stall his car on the track, for two reasons: First, When the driver is surprised on seeing an engine approaching the highway, he becomes excited and loses control of himself as well as the car. Second For the reason that the pulling power of the car is taxed too greatly, therefore it is important that the car should be shifted into a lower gear before attempting to cross track.

"You should remember that crossing arm signs, alarm bells, gates and crossing watchmen are placed at railroad crossing by the railroad for your protection, and should be respected.

"Drivers of automobiles or trucks should lead every assistance and cooperation with railroads with a view of eliminating this awful slaughter. We feel you owe this to the occupants of your car, your family, as well as yourself.

"Because of the increased use of automobiles and trucks, railroad crossing accidents are becoming more numerous each year; for this reason, it is necessary for you to get serious with yourself—no telling, you may be the next victim.

TREATY'S

(Continued From Page One)

to the action of Premier Nitti of Italy in agreeing to reopen negotiations with Foreign Minister Trumbutch of Yugoslavia.

This is accepted here as almost certain proof that Lloyd George and Premier Millerand have notified the president that they will withhold further action in the Adriatic problem until the proposed conference between Nitti and Trumbutch has been completed.

The proposed Jugo-Slavia-Italian conference was the only hope held out here today for an amicable settlement of the entire situation for the entire change of notes it looked up as the one possible way out, since President Wilson and the entente premiers have shown no disposition to swerve from their original stand.

President Wilson's flat statement, however, that such a conference could not agree as to the disposition of territory other than that which directly concerns either Italy or Jugo Slavia, brot some pessimism, for there were many high officials here who believed that neither of the countries concerned in the Adriatic controversy would be able to reach an agreement unless they were given concessions other than those already granted.

The publication of the various notes and memoranda bearing on the dispute between Italy and Jugo Slavia, revealing a certain frankness not by both President Wilson as well as the French and British premiers, has proved as much of a sensation in political circles here as was the original news of the crisis over the Adriatic.

That the United States is still hesitating to enter the league of nations appears a certainty, for in the last Anglo French note, there is no ending of ground to the president, while in the latter's reply to Prime Ministers Lloyd George and Millerand he flatly states that he has "no choice but to maintain the position he has all along taken," as regards the settlement of the dispute over the Dalmatian coast.

"A Wonderful Medicine" Reports this
National Harvester Man.

R. S. Story is connected with the National Harvester Co. at Springfield, O. This is what he said to Springfield's Nerv Worth druggist not long ago:

The Troupe Drug Co.—For a year or more I have suffered severely from rheumatism, pleurisy and sciatic pains. They affected my shoulders, back and legs. Muscles would get painful and drew up my legs. Stomach and digestion in bad condition. Sour stomach and would belch up sour matter. I could not find anything to relieve these ailments until I purchased a bottle of Nerv-Worth which I took regularly, as directed, and I can say now that I AM ENTIRELY RELIEVED of these pains. Stomach and digestion in fine shape. It proved in my case to be a wonderful medicine and I most cheerfully recommend it.

AN INSIDE BATH
MAKES YOU LOOK
AND FEEL FRESH

Says a glass of hot water with

keeps illness away.

Says a glass of hot water with phosphate before breakfast keeps illness away.

Physicians the world over recommend the inside bath, declaring this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the alimentary canal before eating more food.

Those who wake up with bad breath coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who have bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to show the value of inside bathing.

COLBY EXPECTS TO HESITATE IN GOTHAM AWHILE

NEW YORK, Feb. 27.—Bainbridge Colby, who has just been appointed secretary of state by President Wilson, declared today that he would remain in New York until the appointment had been confirmed by the senate. Discussing public policies, Mr. Colby said he supported President Wilson on the league of nations and the peace treaty. He added: "I am in sympathy and accord with the peace treaty."

all President Wilson's works. But, certainly that was made sufficiently evident by my selection."

Mr. Colby in addressing the National Retail Dry Goods Association, said that he got the impression in Washington that "the peace treaty may be said to be almost dead."

"We have made a spectacle of ourselves by the way we have hesitated and stumbled," continued Mr. Colby in his speech. "Thus we delayed the ratification of this enlightened treaty of peace. I have just spent three days at Washington and they were the most depressing days I ever spent there."

50 Years Ago

a young man who practiced medicine in Pennsylvania became famous and was carried in consultation in many towns and cities because of his success in the treatment of disease. He finally made up his mind to place some of his treatments before the entire United States and, moving to Buffalo, he put up what he called his Favorite Prescription, and placed it with the druggists in every state in the Union.

That was fifty years ago this winter. For fifty years this Favorite Prescription of Dr. Pierce has sold more largely throughout the United States than any other medicine of like character. It's the testimony of thousands of women that it has benefited or entirely eradicated such distressing ailments as women are prone to.

For over fifty years some of Dr. Pierce's home medicines have been selling over the drug counters, so that more than forty-eight million bottles have been sold during that time. This speaks well for the reliability and value of Dr. Pierce's standard home remedies. Dr. Pierce's Golden Medical Discovery is a blood tonic and strength-builder which contains no alcohol, yet has tonic qualities that have endeared it to the American public. Dr. Pierce's Pleasant Pellets, composed of May-apple, aloes and jalap, have long been considered the best vegetable laxative, in the same way that Dr. Pierce's Favorite Prescription has long been known as the best tonic for diseases peculiar to womanhood. More recently that wonderful discovery of Dr. Pierce's—namely, Anuric (anti-uric-acid), has been successfully used by many thousands of people who write Dr. Pierce in unqualified terms of the benefits received—that their backache and other symptoms of kidney trouble have been completely conquered by the use of Anuric.

WOOD'S BOOSTERS WANT PEOPLE TO PICK CANDIDATE

COLUMBUS, Ohio, Feb. 27.—Declaring that the object of the Wood men in Ohio is to give the people of the Buckeye state a free voice in the selection of delegates to the Republican national convention and "prevent the delivery of a hand picked delegation, as an individual, or group, may see fit," Colonel William Cooper Procter, of Cincinnati, prominently identified with the national organization boosting the presidential candidacy of Major General Leonard Wood, today announced that the Wood men will not only inaugurate a preferential primary in this state in Wood's behalf, but will have candidates in every district throughout the state.

"Basing our action upon this conviction, we are determined that the people shall have, as the law says they shall, the full opportunity to give effect to their wishes, an opportunity that shall not be denied them by any attempted reversion to old time political guidance or trickery," said Colonel Procter.

"Senator Harding has stated to many his disinclination to be a candidate. To others he has said that he was influenced to become a candidate at the instigation, and under the persuasion of a certain senatorial group in Washington. Acting in accordance with the known political tactics of the afore mentioned group, Sen. Harding's manager, Mr. Harry M. Daugherty, has objected to candidates for delegates, altho they were pledged to Senator Harding as their first choice, because their second choice was Leonard Wood.

"Mr. Daugherty did this because he feared such delegates would not be subservient to his wishes; because he feared he could not deliver them, in case the time came when he thought Ohio's vote should go to a candidate other than Senator Harding," declared Colonel Procter.

SOLDIER BONUS TO RECEIVE ATTENTION

WASHINGTON, Feb. 27.—Soldier bonus legislation was taken from various house committees and consolidated in the ways and means committee, this afternoon, by action of the house in special proceedings.

CHICAGO MOVIES MAY BE CLOSED BY BIG STRIKE

CHICAGO, Feb. 27.—The controversy between Chicago motion picture theatre owners and union operators, which resulted in the closing of all movie houses here Monday was carried by the union men to New York today. Charles C. Shay, president of the International Alliance of Theatrical Stage Employees and Motion Picture Employees, with headquarters in New York, is to be visited by local heads of the union Friday. They will ask him to back them in the fight with the Chicago theatre owners, and, if a lockout results, to institute a boycott against all film companies in the United States and Canada, who continue to do business with Chicago movie houses.

THE GOOD NEWS SPREAD FAST

One person after the other kept telling about what good Dreco was doing, so finally this lady bought a bottle.

RIGHT THING AT LAST

Relieved constipation; stopped gas forming; eased her kidney trouble, and strengthened the vital organs.

"It seemed like the good news of what Dreco was doing spread fast, for I kept hearing people talk about what it was doing until I decided to get a bottle also," said Mrs. Wm. A. Gast, 1214 Putnam St., Sandusky, O.

"I've suffered agonies from gastritis. My food soured in my stomach, filled me with gas, and caused griping pains and a choking feeling in my throat. My bowels were constipated so that I had to take medicine almost every night for them. I had been under treatment for kidney trouble for months—seems I had taken everything except the right thing. I was losing hope of ever being real well again. When I started taking Dreco I was truly in a bad condition, for I could eat but very little solid food. Dreco acted in a soothing manner on my stomach and topped the gas almost at once. My food began to nourish me, and my nerves got steady. My bowels acted in a normal way each day; the headaches stopped and my sleep became restful, and I'd rise in the morning feeling refreshed. Dreco has proven a wonderful tonic to my vital organs and made a new woman out of me."

Dreco is made from the pure liquid extracts of many herbal plants, which act on the stomach, liver, kidneys, bowels and enrich the blood. All good druggists sell Dreco and it is highly recommended in this city by Page & Lorenz.

SPRING WILD DUCK

SHOOTING UNLAWFUL

Spring duck shooting is no longer lawful and local sportsmen are cautioned by Game Protector P. B. Johnston not to kill any wild duck this spring.

Formerly the state law permitted the shooting of wild duck from March 1 to April 20 as well as from September 1 to December 15 but the state law has been amended and the only open season now defined in the following section of the fish and game laws:

"Wild geese, brant, mallard and wild duck (other than wood ducks) and pintails, may be taken only from the 15th day of September to the 31st day of December, both inclusive, and possessed during such additional season as provided by federal regulations. Wood duck shall not be taken before September 15th, 1920, or after that date except from the 15th day of September to the 31st day of December, both inclusive."

SECOND READING

HOME RULE BILL

LONDON, Feb. 27.—The leaders of the Labor party today prepared a motion opposing the second reading

of the government's new Irish home rule bill in the house of commons, saying it would not lead to a settlement of the Irish question. The Daily Chronicle states that the measure provides a joint court appeals for all Ireland. The idea in government circles is to have the bill referred at once to a joint committee of both houses of parliament, according to the Daily Chronicle.

When the bill was introduced in the house of commons by Ian MacPherson chief secretary for Ireland only the title was read and none of its details divulged.

HOME RULE BILL

IS ASSAILED BY HOUSE MEMBERS

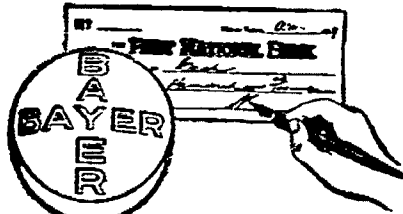

LONDON, Feb. 27.—The government's new home rule for Ireland bill was vigorously attacked when debated upon on it in the house of commons this afternoon.

"This bill is the most insulting proposal ever submitted," declared Joseph Devlin. "It is a ridiculous attempt at solution. Self government is the only solution."

"We cannot do anything in Ireland until order is restored," said Lord Robert Cecil. "It is useless to pass a bill that the Irish will reject."

NAME "BAYER" ON

GENUINE ASPIRIN

"Bayer Tablets of Aspirin" to be genuine must be marked with the "Bayer Cross" just like your check must have your signature.

Always look for the "Bayer Cross" when you are getting genuine Aspirin prescribed by physicians for over 13 years.

In the "Bayer" package are safe and proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally.

Handy tin boxes of twelve tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacturing of Monacoeleacidester of Salicylic acid.

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will soon all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arceine into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passages and throat clean and healthy.

Nearly all druggists dispense Mentholized Arceine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

PROSPECTIVE HOME ECONOMICS PUPILS MEET MONDAY NIGHT

A meeting for the benefit of the prospective students of vocational home economics will be held at the Central school building Monday evening, March 1 at 7 o'clock. At this meeting all those who are desirous of entering the training will be instructed in the steps preparatory to opening of the classes.

Several inquiries have been received at the high school relative to the night school classes in sewing and cooking. All who desire to enroll in these classes should send their names to the superintendent of schools, O. B. Clifton, and attend the meeting Monday evening.

The industrial department of the public schools offers a free course in manual training, mechanical drafting, estimating and shop mathematics, to a limited number of persons who are not enrolled in school.

The class meets Wednesday and Thursday evenings from 6:30 to 8:00 at the Central school building.

For further particulars apply for entrance are advised to call Sept. O. B. Clifton or Director William M. Thresh.

The vocational home making and trades school for girls is proving a success under the direction of Miss Mary Agnes. The girls are intensely interested in their work.

The department is a part of the public schools and credit is given for all courses offered. The school is free to girls not enrolled in school, but only a limited number can be admitted as the classes are almost filled.

Girls desiring admission or information are directed to call Miss Agnes or Sept. O. B. Clifton without delay.

REPETITION OF RUM REBELLION TO BE PREVENTED

WASHINGTON, Feb. 27.—With the "whiskey rebellion" in Michigan peacefully settled, Attorney General Palmer and Commissioner Roper of the bureau of internal revenue today took steps to prevent similar occurrence elsewhere.

Mr. Palmer arranged for a conference with Prohibition Commissioner Kramer to discuss means of closer cooperation between prohibition officers and local authorities, particularly in sections where there are reports of an existing ill feeling because of alleged overzealousness of prohibition officers.

Officials are much perplexed over situation that have developed in some sections of Pennsylvania, Ohio and New York. Illicit distilling on a wholesale scale is reported from these states, with inadequate forces available to check the unlawful practices. In some localities municipal officers have been slow to lend aid to national enforcement officers. This has deterred more vigorous enforcement of the new law in many instances, officials stated. But such defenses they say, probably will disappear when additional means are afforded upon which local and national officers can proceed harmoniously.

The immediate effect of the Iron River revolt will be a general tightening up of the enforcement machinery. Executive officers who have shown incompetency or laxity will be supplanted. It was said to be probable that resignations of some of the directing officers would grow out of the Iron River episode. Roper has taken personal charge of the task of ironing out the rough spots in the enforcement work.

Also deploring the Michigan incident, Mr. Roper is anxious to avert similar instances if possible and more comprehensive instructions outlining duties of enforcement officers now are being dispatched to clear up present misunderstandings.

AN OLD RECIPE

TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

As everyone knows that Sage Tea and Sulphur properly compounded will bring back the natural color and lustre of the hair when faded, streaked or gray, you are the only way to get this mixture was to make it at home which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

DR. CALDWELL'S SYRUP PEPSIN
THE PERFECT LAXATIVE

Robert Fulton, builder of the first steamboat.

Puzzled over the theory that actual signals are possible, Miss Covington believes that communication with other worlds will come if a long and a short flash has been observed.

"In time, we might even show the Martians a picture of an earth city," said Miss Covington.

"Of course, I am still skeptical about being able to get the first communication, but, once that is accomplished, the rest should be less difficult."

Miss Covington is a granddaughter of the late Samuel Fulton Chase, who was the first president of the Cincinnati Chamber of Commerce.

CONSTITUTIONALITY CUMMINS-ESCH BILL WILL BE ATTACKED

WASHINGTON, Feb. 27.—The railroad unions and the farm organization which have gone on record against the Cummins-Esch bill are planning to attack the constitutionality of the bill by court action in event the president signs the measure, it was learned today.

Proceedings seeking to enjoin the government from turning back the railroads to private ownership March first, may be filed.

At the white house it was learned that Glenn N. Plumb, attorney for the railroad brotherhoods, has filed a brief with the president attacking the constitutionality of the bill.

The measure is subject to constitutional attack on three grounds, Plumb said today.

Railroad union leaders who have been working to prevent a nation wide strike to day expressed alarm at the outlook.

It is admitted now that there is a

slight prospect of averting a strike of the four hundred thousand maintenance of way employees and shop laborers if the president signs the Cummins-Esch bill without providing a special wage tribunal and guaranteeing immediate relief.

The Brotherhood of Railway Clerks, with a membership of 200,000 including steamship clerks, freight handlers, station agents and express employees is also threatening action.

The fear of the leaders is that the strike of one union will extend until there is a nation wide strike of workers, so disgruntled are the workers in all organizations.

President Wilson will send a note to the representatives of the railroad workers explaining his attitude, when he takes final action on the railroad bill, it was learned at the white house today. The bill has not yet been returned to the president by the attorney general.

In event the president signs the Cummins-Esch bill, there is also danger it was stated today that the sentiment for a general strike will be so strong as to force concerted action by the fourteen organizations in the new railroad alliance despite all efforts of the leaders to prevent it.

Significance is attached to the fact that all fourteen in the reports of their separate conferences submitted to E. J. Manion, secretary of the alliance, announced that their future course hinges upon the president's action on the Cummins-Esch bill.

All grand lodge officials of the United Brotherhood of Maintenance of Way employees and shop laborers, the Order of Railway Telegraphers, the Brotherhood of Railway Clerks and the Order of Railway Signal Men are remaining in Washington to attend the mass meeting to be called as soon as the president takes action on the Cummins-Esch bill. Only the chief executives of the other organizations remain. These, however, have full authority to act.

IRISH MAY GET SINGLE CHAMBER PARLIAMENTS

LONDON, Feb. 27.—The Irish parliament which the government will seek to establish under the new home rule bill will consist of a single chamber, each member representing a constituency of the Times today on the details of the measure. The first election of members to the new parliament will be held in the two constituencies which will be the first to be created.

The Nationalist party announces that the bill will be made public tomorrow. It has been an official secret for some time.

Mr. W. J. Connelley, leader of the Nationalist party, said today that the bill will be made public tomorrow.

BANK ROBBERS ARE SCATTERED

NEW CASTLE, KY., Feb. 27.—Routed in a gun battle with citizens early this morning, four masked robbers who blew the safe of the Smithfield bank escaped after a lively exchange of shots. Miss Lottie Saxton, telephone operator who saw the men enter the bank, gave the alarm. The robbers fled thru a back door of the bank, carrying a sack, but no statement as to the loss if any to the bank is obtainable.

Hundreds of shots were fired at the robbers, who returned the fire, but it is said no one was wounded.

CAMBRIDGE, MASS.—Detroit university, it was stated today, has applied for the date on the Harvard football schedule abandoned by Notre Dame.

COLLEGE PROF. SAYS JAPS MUST GET OFF MAINLAND OF ASIA

DELAWARE, Feb. 27.—The claim that Shantung must go free and that Japan must leave the mainland of Asia forever was made by Professor Homer B. Hulbert, addressing O. W. U. students and Delaware citizens.

He claimed that Japan was paid by England, France and Italy to send 2,000,000 troops to the European battlefields and that Japan was to receive Shantung for this assistance in winning the world war.

BOLSHEVIK VICTORY REPORTED COMPLETE

LONDON, Feb. 27.—The military victory of the Bolshevik armies may be declared "as complete," the generals of the Soviet army, assisted, it is alleged by German officers—upset military traditions by conducting a successful winter campaign on several fronts.

With the allies and Soviet Russia working into closer relationship the Moscow regime is now bending all its energies to the following:

1. Peace with the outside world.
2. Reopening commercial relations with Europe.
3. Re-construction of the economic life of the nation.

Strengthening of the Soviet regime throughout all Russian territory now under its control.

The next big step in the Russian situation will be the report of the mission which the league of nations labor bureau is sending to investigate.

While this investigation is under way it is not improbable that peace negotiations may be inaugurated between the Soviet government and the governments of Finland, Lithuania, Latvia and perhaps Roumania.

BRIDE OF SWEET SIXTEEN ASKS TO BE FREE AGAIN

BARBERTON, Feb. 27.—Sixteen-year-old Mary Gavlek has asked for legal separation from her husband, Joe Gavlek, of Youngstown, one month after the ceremony.

Her father, Mick Pfiffath, as her next friend, signed her petition.

She claimed she was induced to swear falsely concerning her age when application was made for the marriage license.

She claimed, further, that her husband had no money, was shiftless and took her to live with relatives where seven persons occupied three small rooms.

That she married "in childish simplicity" and that it was "all a mistake" were claims made by the girl-wife.
